

# **\*Homework Program\***

Dear Parents,

We are happy to introduce an exciting homework program for our second graders which will begin the week of September 12. This homework program will:

- \* include skills that directly relate to the curriculum
- \* enhance academic performance
- \* ease the transition from second to third grade
- \* provide students with age appropriate responsibility

Homework will be sent home each night, Monday through Thursday and is expected to be completed and returned the next day. We also encourage everyone to read for 15-20 minutes each night, along with the daily homework. Work will be checked each day. Unexcused late work will receive half credit if turned in the next school day. We will also give half credit to work brought in by a parent during the day. Completing homework and returning it to school is the responsibility of your child.

Homework is an opportunity for you to see what your child is learning in school. It is also an important time for you to check your child's understanding of skills and concepts taught.

We feel that this program will enhance students' academic performance and give them the opportunity to practice and review skills that are being taught in the classroom each week.

Thank you for your continued support,

The Second Grade Team
